

ERP Documentation – 3. HR Department

*Version 0.1 (draft, built from your notes; items marked **[Proposed]** are my suggestions for you to confirm)*

1. Purpose and Scope

HR manages the full employee lifecycle: recruitment, onboarding, records, attendance and leave, training, performance, payroll and exit. **HR is the only department that creates staff users in the ERP.** Staff data is maintained by HR and the respective Department Head.

2. Core Rule: Staff User Creation

Only HR can enter a staff member into the system. HR enters all the data about the user in one place; nobody else can create a staff user.

Flow:

1. HR enters the staff profile (basic details, department, role, documents, joining details).
2. On saving, the system **creates the user** and sends an **email with a temporary password** to the staff member's registered email.
3. On first login, the user is **forced to change the password**.
4. The user then works in the ERP **according to the role defined by HR** (permissions, dashboard and modules follow the role).

Department / role switch: HR (and no one else) can switch a staff member's department or role. The change is saved as a **new entry with date and approver**; the previous assignment stays in history.

Rules:

- No edit and no delete once saved; changes are made only through defined actions (transfer, promotion, exit) that keep history.
 - A staff member can view their own profile only; Department Head and HR can view staff in scope; MD can view all.
 - Student users are not created here. They are created automatically when the admission payment is made (see Academics).
-

3. Roles

MD → HR Head → HR Executive → (Department Heads act on their staff for approvals and records)

Role	Responsibility
HR Head	Oversees all HR processes, approves offers, increments, promotions, disciplinary actions, exits.
HR Executive	Data entry, onboarding, documents, attendance and leave processing, payroll preparation.
Department Head	Approves leave, recommends increments and promotions, updates staff records for their department, gives performance inputs.
Employee	Views own profile, payslip, leave, attendance, training, performance results.
MD	Final approvals, full visibility and audit.

4. Module Map

#	Module
1	Staff Management and User Creation
2	Employee Document Management
3	Recruitment
4	Interview Scheduling and Feedback
5	Offer Letter and Onboarding
6	New Joiner Observation and Shadow Mentor
7	Attendance and Leave
8	Training Records, Schedule and Feedback
9	Performance Review and Comparison
10	BSC Audit Score
11	Increment and Promotion

#	Module
12	Payroll and Payslip
13	Salary Advance and Loan
14	Employee Bonus
15	Memo, Suspension and Disciplinary Action
16	Employee Child (Fee Concession)
17	Exit Formalities
18	Dashboard and Reports

5. Module Details and Workflows

5.1 Staff Management and User Creation

- Staff profile: personal details, contact, department, designation, role, reporting head, joining date, qualification, experience, bank details **[Proposed]**.
- Staff list with filters (department, role, status) and export.
- Department and role switch as described in section 2.
- Staff **records are updated and maintained by HR and the respective Department Head**; history is retained.

5.2 Employee Document Management

- Upload and store documents: ID proofs, certificates, appointment letter, experience letters, contracts, medical fitness **[Proposed]**.
- Document type, issue date, expiry date, verification status (verified by HR).
- Expiry reminders for documents that need renewal.
- Access restricted to HR, the employee (own), the Department Head (limited) and MD.

5.3 Recruitment

- Vacancy request from a Department Head → HR Head review → MD approval **[Proposed]**.
- Job post, applicant records, shortlisting, status tracking (applied, shortlisted, interviewed, selected, rejected, joined).

5.4 Interview Scheduling and Feedback

- HR schedules interviews and **assigns a panel member from another department**. For example, for an academic post an academic staff member is selected to take the interview.
- The panel member gets a notification, takes the interview, and **submits feedback and ratings** in the ERP.
- HR consolidates ratings for the decision.

5.5 Offer Letter and Onboarding

Flow:

1. Candidate selected → offer letter generated by HR → approved by HR Head / MD.
2. Candidate accepts → HR enters staff data and the system creates the user (section 2).
3. **Onboarding checklist** (documents, ID card/RFID card, email, system access, uniform, orientation) is assigned to the responsible departments.
4. Checklist items are completed and confirmed by each department.

5.6 New Joiner Observation and Shadow Mentor

- A **shadow mentor** is assigned to each new joiner.
- Observation period with periodic feedback from the mentor and Department Head.
- Ends with a confirmation decision (confirmed, extended, not confirmed).

5.7 Attendance and Leave

- Attendance is captured automatically from the RFID device (staff punch daily) and synced to the ERP.
- **Leave request:** employee requests → approved or denied by **HR and the respective Department Head**.
- **Permission request:** short absence up to **2 hours**, approved by the Department Head (and HR). Attendance shows Permission.
- Approved leave automatically updates attendance to Leave; no punch and no leave = Absent.
- Emergency leave: the Principal or DA reassigns the teacher's periods (Academics); other departments' heads reassign duties.
- Department-wise and staff-wise timings are **configurable** (different timings per department).
- Leave balance by type (casual, sick, earned, etc.) **[Proposed]**.

5.8 Training

- **Training records** per employee.
- **Training schedule** (topic, trainer, date, audience).
- **Training feedback** from participants about the session and trainer.
- Attendance for training and certificates uploaded to the employee record.

5.9 Performance Review and Comparison

- Periodic performance review by Department Head with defined parameters.
- Employee self-assessment [**Proposed**].
- **Performance comparison** across staff in the same department or role, and across departments for HR Head and MD.
- Inputs include star ratings, attendance, training and BSC score.

5.10 BSC Audit Score

- Balanced Scorecard score recorded per employee/department as part of performance.
- Used in increment and promotion decisions.
- Scoring parameters are defined by the audit team (see the Audit document).

5.11 Increment and Promotion

Flow:

1. Department Head recommends using performance and BSC data.
2. HR Head reviews.
3. MD approves.
4. New salary/designation becomes effective on a defined date; the change is added as a new record and flows to payroll.

5.12 Payroll and Payslip

- Monthly payroll processing from attendance, leave, deductions, allowances, advances, loans and bonuses.
- **Payslip** generated per employee and visible in their profile.
- Payroll is sent to **Finance** for payment voucher and bank payment.
- Payroll lock after approval; corrections only through adjustment entries in the next cycle.

5.13 Salary Advance and Loan

- Employee requests an advance or loan with amount and reason.
- Approval: Department Head → HR Head → MD (limits set by Finance).
- Repayment schedule and monthly deduction in payroll; balance visible to employee and HR.

5.14 Employee Bonus

- Bonus rules and amounts defined by HR/Finance; approved by MD.
- Credited through payroll.

5.15 Memo, Suspension and Disciplinary Action

- **Memo:** issued by Department Head or HR, acknowledged by the employee.
- **Suspension and disciplinary action:** initiated by Department Head or HR, reviewed by HR Head, approved by MD.
- Employee response and decision are recorded; entries are permanent history.

5.16 Employee Child (Fee Concession)

- Staff children studying in the school are linked to the staff profile.
- **Special fee concession** for employees' children, shown in the student profile and applied by Finance.
- Other concessions (sibling, special cases) are handled in Finance; the staff-child link is maintained here.

5.17 Exit Formalities

Flow:

1. Resignation or termination initiated.
2. Notice period, handover and **no-dues clearance** from each department (Store, IT, Library, Finance, Transport, etc.).
3. Exit interview and feedback.
4. Final settlement through payroll/Finance.
5. HR deactivates the user (history retained; no deletion).
6. Relieving/experience letter generated.

5.18 Dashboard and Reports

- HR dashboard: headcount, joiners, leavers, attendance, leave trends, pending approvals, training status, document expiries.
- Department Head dashboard: team attendance, leave requests, performance.
- Employee dashboard: own attendance, leave balance, payslip, training.
- All pages have filters and PDF/Excel export (with column selection).

6. Approval Chains Summary

Process	Initiator	Approval chain	Result
New staff user	HR	HR Head (offer) / MD	User created, temp password emailed
Dept / role switch	HR	HR Head	New assignment recorded
Leave	Employee	Dept Head + HR	Attendance updated
Permission (up to 2 h)	Employee	Dept Head (+ HR)	Marked Permission
Interview feedback	Panel member	HR consolidates	Selection decision
Increment / Promotion	Dept Head	HR Head → MD	Payroll updated
Advance / Loan	Employee	Dept Head → HR Head → MD (Finance limits)	Deduction schedule
Disciplinary action	Dept Head / HR	HR Head → MD	Recorded
Exit	Employee / HR	All dept no-dues → HR Head → MD	User deactivated

7. Role-Permission Matrix (draft)

Legend: C = Create, V = View, A = Approve

Module	Employee	Dept Head	HR Exec	HR Head	MD
Staff creation	-	-	C	A	V
Staff record view	V (own)	V (dept)	C/V	V	V
Documents	C (upload)	V	C/V (verify)	V	V
Leave	C	A	A	A	V
Payroll	V (own payslip)	-	C	A	A
Performance	V (own)	C	V	A	V
Increment / Promotion	-	C (recommend)	V	A	A
Disciplinary	V (own)	C	C	A	A
Exit	C	A	C	A	A

8. Integrations

Department	Interaction
Academics	Class teacher/HOD data, interview panel members, leave and substitution, star ratings in performance
Non-Academics	Duty allotment tied to attendance, onboarding checklists, no-dues clearance
Finance	Payroll payment, advances/loans, bonus, staff-child concession, limits
MD	Final approvals, audit view
Audit	BSC score, access logs, downloads

9. Confirmed Decisions

Updates from review. These supersede earlier wording in sections 1 to 8 where they differ (in particular, "HR Head" and "HR Executive" become a single "HR" role).

- 1. HR role:** There is **one HR role, called HR**. There is no HR Head or HR Executive. Wherever the draft says HR Head or HR Executive, it means HR.
- 2. Role assignment:** When HR creates a user, the role is **picked from a fixed list** (no custom role building by HR). Roles and their permissions are defined in the system settings.

3. **Leave types and quotas: Defined by HR** as settings (types and yearly quotas can be added and changed for future periods).
4. **Payroll components:** All of the following are available: PF, ESI, TDS, professional tax and allowances. **HR chooses which ones apply** per employee or salary structure.
5. **Performance review cycles:** Mostly **monthly, half-yearly and yearly**. The cycle is chosen when the review is set up.
6. **BSC: Defined by HR** (parameters and scoring), and the audit team reviews it.
7. **Observation period:** **HR chooses the period** for each new joiner.
8. **Advance and loan limits:** Set **jointly by Finance and HR**, and they are **fixed** (not decided case by case).
9. **Staff-child concession: Custom per employee.** Some staff receive a high concession and others a low one. HR records the concession against the employee, and Finance applies it to the fee.

10. Added Module: Incentives

Incentives are paid through payroll in addition to salary and bonus. Three types:

Incentive	How it works
Extra work time incentive	Staff who work beyond their scheduled time (extra time, extra duty) receive an incentive.
Admission referral incentive	Staff who refer a student who then gets admitted receive an incentive.
Staff joining referral bonus	Staff who refer a new employee who joins receive a bonus.

Proposed handling (please confirm)

- *Extra work time:* measured from the RFID punch beyond the scheduled time, or from an extra-duty request, **approved by the Department Head**, then verified by HR and sent to payroll.
- *Admission referral:* the referrer is tagged on the PRM enquiry or admission record. The incentive becomes payable **only after the admission payment is made**.
- *Staff referral:* the referrer is tagged on the candidate record. The bonus becomes payable **after the new joiner is confirmed** (end of the observation period).
- Incentive amounts or rates are **settings** defined by HR with Finance, and every incentive keeps a record: who, why, amount, approver, payroll month.

11. Incentive Decisions

- **Approvers:** The approver for an incentive can be the **Department Head, HR or MD**, chosen when the incentive is recorded (any of them can be set as the approver). The approver, date and amount are saved with the record.
- **Extra work time payment:** Paid **per hour**. Hours come from the RFID punch beyond the scheduled time or from an approved extra-duty request.
- **Eligibility:** Incentives apply to **every staff member**.
- **Rates:** The per-hour rate and the referral amounts are **settings** defined by HR with Finance. They can differ by staff group if needed, and are not fixed in the system design.

Status: No blocking items remain for HR.

Next suggested department: Finance.
